

iCare about the iPhone!

Look in your pocket! Do you have an iPhone?
Want to know how it is made?

Apple does NOT make iPhones
...but Foxconn, a huge company in China, does!

Did you know?

Foxconn workers sometimes work 90 hours a week. (2x the time you spend in school)

Foxconn workers get \$1.78 an hour - less than 10% of the money you pay goes to the person who helped make it.

Things are improving...

- Recently Foxconn stopped workers from working overtime but did not cut pay.
- Workers say they are thankful for the job and want more money.

Foxconn workers stand for long hours and work with dangerous chemicals.

Some employee suicides may be due to repetitive, isolating work.

Foxconn provides apartments for workers, but they have to sleep with many people in each room.

Want to do something? DO THIS:

The truth is, Apple isn't the only company that uses Foxconn products. Many major brands do!

If you stopped buying iPhones, the workers would not have jobs, so don't stop buying. DO start pressuring.

Find out more.. .

Write a letter to Apple saying that you care about how iPhones are made.

YOUR VOICE MATTERS.
